**The new Wall Papers are here!**

We offer a new idea in interior furnishings for your consideration. No feature in modern home decoration is so artistic and appropriate as Wall Papers with Cut-out Borders and Cretonnes to match. These borders are supplied ready to apply to the wall, all cut out by steel dye, hydraulic press process. The narrow decoration, matching the sidewall cut out border, is one of the new ideas for 1910. Imagine the delightful harmony and finish this scheme of decoration affords for your bedroom—your walls hung in some delicate shade with just enough strength of color and design to give character to your sleeping room and yet of such tone as to be a charming background for exquisite floral cut outs.

This mural treatment with curtains, bedspread, chair covering and bureau top, matching in color the shade of your sidewall and in design the exact detail of your graceful floral border, is indeed a decorative achievement.

Our sidewalls and cut-outs, in a variety of colorings and designs, have unusual artistic merit.

This is why we are enthusiastic.  
Do you blame us?

A similar deposition was made by the manager of the McAustin store. Jastram testified that he had no official connection with the case. He said that in the first proceedings he represented William Armour and others and that he had left the details to an attorney. Lunch was served and a good time enjoyed by all, old and young. A more poverty-stricken dressed company it would be hard to find. There were no prizes, but Miss Florence Pierce, in a dress worn through and through, that was her grandmother's, showed the marks of age, as well as poverty.

Miss Mary E. Slason, formerly of Rutland, is highly spoken of in an interview recently published in the Washington (D. C.) Herald. An expert in art and science of basketry, F. S. She teaches the practical as well as the artistic side of this ancient craft and specimens of her work may be seen all over this country and some have found their way across the sea.

# EARLY SHOWING OF LADIES' SUITS

The Tailor-made Suits which continue to find the most favor are those made with a semi-fitted jacket, varying from 30 to 36 inches in length. The coats are fastened with three or more buttons and are cut away slightly at the bottom in a similar manner to a man's garment. The skirts to these plain tailored suits are plaited in a general rule with the plaits starting at the waist line, in fact, it is very noticeable that the straight plaited skirt is finding more and more favor as the season advances.

## LADIES' TAILORED SUITS.

Our early showing of these popular Spring Suits is one of the best we have shown as early as this in the season. We feel confident that this is to be one of the largest and best suit seasons we have ever had. We were never able to show so complete a line in a large variety of cloths as we will have this season.

The line of Misses' Suits we will show this season will be of a class that will surely please the young ladies and the small ladies who cannot get a fit in ladies' sizes. The popular line of Sperling & Sperling's Misses' Coats and Suits are models that fit and carry the style of the ladies' sizes.

The new Spring Suits are different than in seasons past in that they are made in combinations that carry the same tones throughout the trimmings and linings.

We will be in New York next week in the interest of the suit department. Anyone wanting any special garment we would be pleased to see what we could get for them.
